

QUANTITATIVE AND QUALITATIVE RESEARCH METHOD TRAINING

Date: Open

Training Information:

Course Title: QUANTITATIVE AND QUALITATIVE RESEARCH METHOD TRAINING

- **Language:** instruction in Khmer but slide presentation and handouts are in English
- **Trainer:** Professional trainer of CAS(trainer profile is available up on request)
- **Date:** Open
- **Time:** 5:00 pm – 7:00 pm
- **Training Venue:** CAS office

Why should you attend this training?

- You need to learn how [to design a research project](#)?
- You need to learn how [to develop a research proposal](#)?
- You need to learn [the research methods of data collection](#)?
- You need to learn about [the data processing](#)?
- You need to learn about [the data analysis](#)?
- You need [to write a research report](#)?

Who should attend?

The courses are designed for students, young researchers, research project officer, research project coordinator, research project staff, and the ones who work related to the fields of research.

Course Objectives

By the end of the course participants will be able to:

- Learn how to design a research project
- Can develop a research proposal
- Using research methods for data collection
- Understand the data processing
- Learn how to analyze the qualitative and quantitative data
- Can prepare the research report

Course Contents

Module 1: Understanding Research

1. What is research and who is it for?
2. Type of research

Module 2: Developing a research proposal

1. Developing a research question, main topics, and objectives
2. Method and sampling
3. Write the research proposal

Module 3: Preparing research

1. Developing research tools
2. Training data collectors
3. Testing research instruments
4. Informing people and receiving feedback
5. Preparing formats for processing information
6. Preparing materials for research
7. Logistics

Module 4: Collecting the data

1. Attitude and behavior
2. Recording, checking, processing, and preliminary analysis
3. What is the purpose of monitoring?
4. Monitoring methods and frameworks

Module 5: Processing the data

1. What is we exactly want to know?
2. How to organize the messing data
3. Summarize information per topic

Module 6: Analyzing data

Module 7: Writing a report

1. Start with a table of contents
2. Write down the main points per chapter
3. Write the main information per point
4. Start writing

Training Methodology

The training methodology will be focused on participatory approaches include: lecture, student-centred including brainstorming, role play, small group discussion with plenary presentation, plenary discussion, group work, team involvement in decision making, participants' problems raised during the workshop for discussion,

Training tools, materials and facilities

The LCD projector, flipcharts, posters, colour papers, handouts, folders, pens, papers and other stationeries, especially, daily evaluation and final evaluation and other specific materials were used to present key learning concepts and structures and to make good environment for learning and to ensure the training run smoothly and efficiency.

Registration and Payment:

Training Fee: 399\$

Free: Training Handouts,

Deadline Registration: Open

SPECIAL DELIVERY: If you register before deadline:

- Get 5%- discount for sending 1- 2 staff
- Get 10%- discount for sending 3-5 staff
- Get 1 Free for sending more than 5 staff

Please book your seat now!
